Embracing Digital Acceleration

VISION : 2024

VARINDIA

VARINDIA, a publication of Kalinga Digital Media, has played a significant role in shaping the Indian IT landscape over the past 25 years. Their dedication to serving the Value Added Resellers (VARs) and partners has established them as a leading voice in the Channel industry.

VARINDIA, India's Frontline IT Magazine addresses the VAR's- Value added Resellers who are the propagators of Technological revolution. **Over the years VAR India has built a vibrant community with a keen focus on adding value to both OEMs / Service Providers and Partners.**

VARINDIA has earned its reputation as a one-stop destination for IT News, views and analysis. Our events have been rated as the No.1 Tech events in the country. It serves as a major resource of business intelligence for VARs (Channels) controls 80% of the average business in the country and always tries to be innovative and futuristic in its approach with respect to the content.

India with its large geography has markets with different demands, hence OEMs have to empower the VARs through the customized and specialized B2B events in various market places including Delhi, Mumbai, Kolkata, Bangalore, Bhubaneswar and other key cities in India.

VARINDIA events are uniquely designed with a combination of actionable, objective insights, expert guidance and consultation, peer networking, and solution provider assessment. In today's interconnected world, businesses face a constant barrage of disruptions and challenges, from emerging technologies to shifting consumer demands. To stay ahead of the curve, organizations must embrace digital acceleration as a key enabler of success.

TECHNOLOGY EVENTS 2024

In 2024, the organizers of the India's largest technology events and conferences will have to return to an in-person format.

As the world continues to move towards digital transformation, it is essential to keep up with the latest technology trends. Digital acceleration is one of the most important aspects of digital transformation.

Conferences - Conferences are the backbone of the tech events of the industry and can be both B2C or B2B events. They are held to educate, inform, or train attendees.

Trade Shows - Trade shows give companies into a specific industry the opportunity to showcase their products and services.

Summits - Though "summit" can be interchangeable with "conference", summits tend to be of a smaller size and are comprised of higher-level executives.

Seminars - You can think of seminars as mini conferences that are much smaller in scope and sometimes lasts for only one day.

VARINDIA addresses the urgent needs of the industry for B2B leaders to combine a human-centric approach to sales with investments in both physical and digital tools to improve the service experience for customers and achieve lasting growth.

The prime objective is to meet the challenges of B2B leaders ,where they are struggling with how to effectively integrate human interactions with digital experiences that enhance customer service. VARINDIA has the expertise to invite the right TG from various verticals and cross section of the mass. **With this we are addressing the growing rift between Partners/VARs and OEMs.**
