ABOUT THE OITF

VARINDIA brings you the 16th edition of Odisha Information and Technology Fair (OITF) 2025. The conference aims to provide a platform for small and medium enterprises (SMEs) and value-added resellers (VARs) to showcase their work and exchange ideas.

Focus on Agile Business Modeling: OITF will analyze the challenges and opportunities of managing agile business modeling, emphasizing corporate experiences, stakeholder value, competitiveness, and policy frameworks.

Odisha's Technology Revolution: The state of Odisha has made significant strides in IT infrastructure, digital literacy, and startup ecosystem development, leading to a surge in IT-related businesses and job creation.

Potential for Growth: Odisha is still in the early stages of its technology revolution but has the potential to become a major IT hub in India. The state government's commitment to IT development and the presence of talented young entrepreneurs are driving this growth.

Overall, OITF 2025 is an important event for the IT community in Odisha, providing a platform for knowledge sharing, networking, and showcasing the latest advancements in the field.

THE NEXT DESTINATION FOR INDIA'S E & IT INVESTMENTS IN ODISHA

The Odisha government has approved industrial projects worth ₹1.36 lakh crore, which is a significant boost to the state's economy.

These projects are expected to create over 74,000 jobs and span nine key sectors, including steel, green energy, chemicals, textiles, and aviation fuel.² This move highlights Odisha's growing importance as an investment destination and its commitment to promoting industrial growth and job creation.

The High-Level Clearance Authority (HLCA) headed by Chief Minister Mohan Charan Majhi has approved the projects, poised to generate employment for over 74,350 individuals and significantly bolster the state's economic growth, it said. The approved projects span nine sectors including steel, chemicals, aluminium, aviation fuel, green energy and equipment, apparel and textiles, power and renewable energy and cement.

These projects will be set up in 10 districts of Odisha such as Jajpur, Jharsuguda, Khurda, Sambalpur, Ganjam, Kalahandi, Malkangiri, Dhenkanal, Bhadrak and Jagatsinghpur.

In the last six months, Odisha has attracted investments exceeding Rs 1.80 lakh crore through 73 industrial projects, which would create employment for over 1.1 lakh individuals
